1. Your post have to contain some HQ thumbs for preview.
 2. Thumbs have to be uploaded to xxx-forum.net. It means no free image hosts. (When your files are deleted from those hosts the post will look fucking ugly, I'm sick & tired of deleting & editing such posts)
 3. Do not make very big posts (containing 100s pics) they load very slow.
 4. Rule breakers will be banned and their posts will be deleted.
 5. People who upload their files to file2upload.com will have some preferences. :drink:
 6. To get password for posting send me PM with some examples of your stuff.
